

## **IN2L Offers Assistance to YOU with CMP Grants**

**IN2L and the Green House Project** are partnering to improve quality of life for elders. IN2L has been working with 400 skilled nursing homes in 28 states since 2012 using technology to battle social isolation and encourage connection for elders.

Skilled nursing homes that receive Medicaid and Medicare funding are eligible to receive CMP grants designed to help communities develop and implement programs benefitting elders nationwide.

CMP is a federal program offering rolling 36-month grants to skilled nursing homes. All costs are covered under the grant for hardware, training, and on-going support. Grant amounts vary by state.

The grant process is complicated and varies by state. Interested communities should contact **Susan Tournie, director of program partnerships at IN2L**, for individual advice and guidance on applying for grants.

Contact Susan for more information on the CMP grants at [stournie@in2l.com](mailto:stournie@in2l.com); 303-806-0797 x 139; 951-212-4775.
